Pure Republicanism *by Ponch K. McPhee*

The purpose driven of the founders was a sovereign republic not tethered to any other nation. For decades other individuals with various masks domestic and foreign have tried to mislead and dupe Americans. The republican party must get back to the principles which bring like-minded conservatives together.

We all know that the democrat population is merely following along behind the new radical establishment. If one believes a lie long enough it seems as the truth. Pure Republicanism is about values and principles and real truth. "the harder the conflict, the more glorious the triumph." by Thomas Paine ~

As a core conservative who is faith driven while supporting the founding father's intent we must know who we are electing. I can tell you that I feel more confident every day that America has improved their rights before God and we now have constitutional carry in some 27 states. Get out the vote in 2023 and get prepared for 2024 to take back America.
